ACCIDENTAL SPILL ADVICE

Protective equipment: Wear respiratory protection. Avoid breathing vapours. Ensure adequate ventilation. Evacuate personnel to safe area. Environmental precautions: Prevent further leakage or spillage if safe to do so. PREVENT spilled material from entering drains or sewer systems. If the product contaminates rivers, dams, or drains, immediately inform respective authorities. Containment and cleaning up: Stop leak if possible. Contain spilled product with an inert diking material, such as sand and earth. Place reclaimed product in a closed and properly labelled waste drum. Store drum in separate area until proper disposal.

GENERAL

TERMINUM remains sticky on surfaces for up to 6 months and is not washed away by water. Exposure to heavy dust and permanent direct irrigation on the applied band, will cause TERMINUM to lose its stickiness faster. The sticky surface can be renewed by applying another layer of TERMINUM over the previous layer. TERMINUM is a water-based resin and does not contain pesticides. TERMINUM is white at application, turning transparent when dry.

DIRECTIONS FOR USE Use only as directed

- Before application, prune the branches which is close to the ground, control weeds and remove side branches hanging down to the ground. Apply on trunks that is already brown or 4-years old.
- Tested on apple, avocado, citrus, eucalyptus, grapes, mango, papaya, pecan, persimmon and pomegranate trunks.
- On eucalyptus and grapevines loose bark, if present, must be removed at application site. First test on a few plants to determine feasibility. Trellises and all other supporting structures, such as poles, cables and wires.
- When TERMINUM is cold, stir well to lower viscosity for easier application.
- Do not add water. The product is ready to use.
- Apply with a brush, keep container closed between applications.
- Apply a band 10 cm wide at a rate of about 30 g per plant with a diameter of
- about 25 cm. The second application, on the same band, will use about 30% less product. Apply about 50 cm above soil level, or above weeds, leaves, dust and
- Clean application equipment immediately after use with soap and water.
